Purpose

Form DS-2019, “Certificate of Eligibility for Exchange Visitor (J-1) Status” is required to support an application for an exchange visitor visa. This form permits a prospective exchange visitor to seek an interview at a U.S. embassy or consulate in order to obtain a J visa to enter the United States. Effective February 14, 2014, the University of Miami (UM) Exchange Visitor Program Policy and Procedure process for all UM campuses was updated by International Student and Scholar Services (ISSS) to include review by UM’s ORA Export Control Compliance office. This review process was included to comply with federal regulations as well as UM’s policy on export controls.

This required process stems from the "deemed export" rule under the U.S. government’s Export Administration Regulations (EAR) and the International Traffic in Arms Regulations (ITAR), which provides that the transfer, release, or disclosure of controlled technical data, technology or software to a citizen or national of a foreign country, even if in the United States, is deemed to be an export to that country. It is the responsibility of UM to screen and review applications of foreign nationals for sponsorship prior to submitting to the U.S. Department of State for processing.

It is the responsibility of the Supervisor to monitor changes in job descriptions, responsibilities and/or departmental procedures that may put a foreign national at risk of exposure to controlled or restricted items. Such changes may require a review by the Director, Export Control Compliance to ensure adherence to U.S. export control laws and regulations. Any changes should not impact the status of the individual’s visa, unless a license is required and cannot be obtained. No controlled / restricted items may be released to any foreign national until a review is completed by the Director and, if required, a license by the governing agency is received. If, at any point, the Supervisor or sponsoring department is unsure how to complete the form or has questions about items or projects that may be considered controlled or restricted, the Supervisor or sponsoring department should contact the Director, Export Control Compliance for guidance.

This standard operating procedures (SOP) document outlines the procedures that the ORA Export Control Compliance office will follow to review applicants being sponsored through the DS-2019 process.
