March 27, 2017

Update: InfoEd Proposal Development Budget

The InfoEd Proposal Development system has been updated, and the Personnel Wizard is no longer available for adding personnel. Personnel should be added via the ADD button available at the top of the Personnel and/or Budget Items screens. For assistance, please see the Personnel FAQs document.

As you know, UM requires the use of InfoEd Proposal Development (PD) for all NIH applications which may be submitted through Grants.gov. This includes New, Renewal, and Administrative Supplements submitted to NIH. Research Progress Reports (RPPRs) and Program Project/Center grants (P's) are excluded, as they cannot be submitted via Grants.gov.

For more information about InfoEd Proposal Development or to view training materials please visit the InfoEd web page or visit the Office of Research Administration website.
