IBISResearch

Coming in April 2020!

We are nearing the launch of IBISResearch, the University of Miami's new grants and agreements management system. IBISResearch is replacing InfoEd, the University's current Pre Award system. The new, fully electronic system will enable faculty and staff to route and approve proposals electronically, submit most federal applications to Grants.gov electronically, and manage awards, contracts, and agreements in a single portal.

Key Dates:
- **March 2020** – Workshops, webinars, and reference materials will be available
- **April 2020** – IBISResearch will be available in an open pilot phase
    - Either IBISResearch or PCRF-L may be used to submit to ORA.
- **Summer 2020** – PCRF-L will no longer be accepted, and all applications will be submitted to ORA via IBISResearch

For Key Features and Educational Opportunities, please refer to the attached flyer or the IBISResearch webpage on the ORA Website.

Registration for classes is through ULearn. Use keyword IBIS in the search box.

For more information, please visit the ORA website at www.ora.miami.edu.
