NSF Technical Corrections to Research Terms & Conditions

A MESSAGE FROM JEAN FELDMAN, HEAD, POLICY OFFICE, NATIONAL SCIENCE FOUNDATION

This note is to inform you that we have made a few non-substantive technical corrections to the Research Terms and Conditions Overlay to 2 CFR §200. The updated Overlay **does not contain any new requirements or policies that were not already addressed by the previous version** that went into effect on November 12, 2020. These technical corrections were made to maintain consistency throughout the document by including the full citation for the following Uniform Guidance sections:

- §200.407 Prior written approval;
- §200.430 Compensation – personal services;
- §200.439 Equipment and other capital expenditures; and
- §200.447 Insurance and Indemnification.

Please visit the [Research Terms and Conditions website](#) for full information.

Jean
